SUMMARY

Experienced Full Stack Developer skilled in **HTML, CSS, JavaScript, bootsrap, and Python with Django**. Proficient in building scalable, responsive web applications with strong expertise in **REST APIs, state management, and database integration**. Passionate about clean code and performance optimization.

EXPERIENCE

Internship

Techpile Technology Pvt. Ltd.

📅 07/2024 - 09/2024   📍 Lucknow, India

- Built dynamic web applications using **HTML, CSS, JavaScript, Bootstrap, Django, Python, MySQL**.
  • Developed and deployed a Newsportal project named **Global India 24X7** with **Python with Django framework** which is fully dynamic in nature.
  • Managed code versions using **Git & GitHub**; deployed projects on cloud platforms.

Project

News Portal

- Developed a fully dynamic news portal, **Global India 24×7**, using **Python** and the **Django framework**. The platform supports **real-time content updates**, **secure user authentication**, and a **responsive UI** for seamless user experience across all devices. Integrated a comprehensive **admin dashboard** for efficient content management and performance tracking. Leveraged **REST APIs** for smooth data flow and enhanced scalability. Applied best practices in **code optimization** and **state management** to ensure high performance and robust security.

Election Voting System

- Our Election Voting System is a secure, web-based solution designed to modernize the electoral process with real-time vote casting and user authentication. It features a responsive interface, live webcam image capture for voter verification, and an admin dashboard for managing elections and candidates. Built with modern frontend technologies and SQLite for database management, it supports scalable deployment. Key elements include session management, role-based access control, and audit trails. This system offers a transparent, paperless, and efficient voting experience with strong data privacy and cybersecurity compliance.

KEY ACHIEVEMENTS

Received a Certificate of Participation from MYGOV on the behalf of Chandrayan mahaquiz.

Received a certifivcate from microsoft for describing for Microsoft copilot for security.

Three-times winner of PPT Presentation competitions in PIT Campus

Received one another certificate From microsoft Completing the course of fundamentals of Generative AI

EDUCATION

B.Tech

Dr. A.P.J. Abdul Kalam Technical University

📅 08/2021 - 06/2025

- Computer Science and Engineering
- sGPA - 7.6

Intermediate

Eminent English Medium School

📅 04/2020 - 03/2021

- 69.2 %

High School

Eminent English Medium School , Jamalapur

📅 04/2018 - 03/2019

- Percentage: 54.8 %
